## Overall Rating

Excellent

Very Good

Good

### Algorithms

- Strong technical skills, plus effective communication skills.
- You are a norm and proficient engineer.

### Chemistry

- Feasible and valuable engineer.
- Good technical and leadership skills.

### Computer Networks

- You can be an eager engineer who is willing to take on any new challenge.
- You acquire the peak of understanding the utmost complex design and implementation issues at every s

### Computer Organization And Architecture

- Profound professional knowledge and always aims to learn and acquire more skills.
- You are an outstanding engineer with rich innovations

### Databases

- You are well talented in your core skills
- A little progress each day adds up to big results

### Digital Logic Principles

- You be valuable as an engineer.
- You can be very skilled and dedicated engineer.

### Discrete Mathematics

- You can be an insightful and thorough researcher and engineer.
- Your Core skills are extra ordinary

### Maths

- Your sound, knowledgeable skills and out-of-box thinking can be precious for your circle.
- You can be an exceptional and a great engineer.

## Object-Oriented Programming

- You acquire the peak of understanding the utmost complex design and implementation issues at every s
- Profound professional knowledge and always aims to learn and acquire more skills.

## Physics

- Combined with your dedication and outstanding technical insight give you the availability to delive
- You can be among the engineers who can do all the tasks effortlessly.

## Software Engineering

- You can be an innovative engineer artist who can improvise and confront new situations.
- You are a norm and proficient engineer.

## Integrity Aptitude

- You have quality to put your work above and beyond everything else.
- You are honest and upfront with all of your dealings.

## Physical Aptitude

- You have self motivation skill as you like to refine your technical skills and add new ones.
- You have ability to identify and organise systems and required resources.

## Operating System

- An engineer who is up to the challenge.
- You can be an application engineer.

## Programming And Data Structures

- Feasible and valuable engineer.
- Innovative and good technical skills.

## General Knowledge Aptitude

- Your sound, knowledgeable skills and out-of-box thinking can be precious for your circle.
- You are knowledgeable in both the creating and engineering.

## Mental Aptitude

- You are always appreciated by the people due to your healthy relationship with them.
- You have an impressive expression of thoughts.

## Social Aptitude

- You have the ability to communicate effectively.
- You willingly participate in group discussions.

## Spiritual Aptitude

- You spend a lot of time planning things based on your understanding of the engineering complexity of
- You try to seek answers for situations and circumstances around you as you believe in becoming a pro
